SUMMARY

Motivated and detail-oriented DevOps Engineer with a solid foundation in software development and IT operations. Proficient in CI/CD pipelines, containerization (Docker), and cloud platforms (AWS). Strong understanding of version control systems (Git). Eager to leverage skills in automation and collaboration to enhance development processes and improve system reliability. Committed to continuous learning and adapting to new technologies in a fast-paced environment.

TECHNICAL SKILLS

Operating System: Linux

Version Control: Git (basic)

Cloud Technologies: AWS (EC2, S3, Lambda, RDS)

Other: Maven, Docker, Jenkins, Kubernetes, AWS CodePipeline

EXPERIENCE

AWS Intern

MetroMax Group, Bengaluru — Mar 2024 - Aug 2025

- Assisted in implementing and maintaining CI/CD pipelines using AWS CodePipeline, ensuring faster and more reliable software delivery.
- Collaborated with development and operations teams to improve system reliability and performance, optimizing infrastructure for scalability and high availability.
- Monitored system performance and troubleshoot issues in real-time, identifying and resolving bottlenecks across cloud-based services.
- Helped manage cloud infrastructure and services in AWS, including EC2, S3, Lambda, and RDS, ensuring optimal resource allocation and cost efficiency.
- Participated in code reviews and contributed to documentation for best practices, helping maintain coding standards.
- Engaged in team meetings to discuss project progress, share updates, and provide input on process improvements.

EDUCATION

PG Program - AI-Driven DevOps & Cloud Engineer

Paperlive Learning · TIH-IIT Patna DevOps Certification — Jul 2026 - Jul 2027

Bachelor of Computer Application

Vivekananda Institute of Technology, Bangalore

CERTIFICATIONS

- AWS DevOps Certified

ADDITIONAL INFORMATION

- Comfortable working under guidance and following coding standards and best practices.
- Good communication skills and a collaborative team player.
- Proficient in Microsoft Excel, Word, and PowerPoint.
